Who we are

The Victorian Applied Learning Association (VALA) has been established in response to the rapid growth in Applied Learning Programs across all sectors of post compulsory education.

We provide *professional support* and *networking opportunities*, including *professional development* and *resource sharing* to those involved in the delivery and management of Applied Learning.

VALA promotes both the interests and status of Applied Learning, and will lead the way to identify opportunities and address challenges with all key stakeholders.

VALA supports all providers of Applied Learning in program provision and delivery and is in the unique situation to encourage *cross-sector* relations.

VALA will promote both the interests and status of Applied Learning, and will lead the way to identify opportunities and address challenges with all key stakeholders.

It is an exciting time for Applied Learning practitioners and a great opportunity to create and encourage shared good practice across sectors.
